

# Library and Knowledge Services

Catherine and Magda are NHS librarians who support members of the NCL Training Hub and ICS. They can help you access the most up-to-date and trusted evidence to assist your decision making, learning and development, research and innovations to achieve health improvement throughout NCL. Below are details of the services we offer – more information can be found at <https://www.ncltraininghub.org/training-and-support/knowledge-services> or just email us at [ncl.lib@nhs.net](mailto:ncl.lib@nhs.net)

Free Electronic Resources	Document Supply	Evidence Searches	Training and CPD	Current Awareness
<p>As a member of NCL staff you have access to a HUGE amount of resources such as electronic journals, ebooks including the Oxford Handbook series, and the point-of-care tool BMJ Best Practice. All you need is a free <a href="#">NHS OpenAthens account</a> which we can help you set up. All resources can be found in one place - the <a href="#">NHS Knowledge and Library Hub</a> - which we can train you to use to get the best results.</p>	<p>If you need to access a published article which the NHS doesn't already subscribe to we can get that for you FREE OF CHARGE.</p> <p>This is an unlimited service - just fill out the <a href="#">form</a> on the Knowledge Services page of the NCL Training Hub website and we'll send you a PDF copy by email as soon as possible.</p>	<p>Searching databases properly is difficult and time consuming. We are trained expert searchers and can do the hard work for you - just give us as <a href="#">much information</a> as you can about your area of interest and we'll return a report of the most recent and highest quality evidence that we find. We have supported QI projects, reviews, patient information - anything that requires knowledge of the most robust and recent research.</p>	<p>We run online sessions including using BMJ Best Practice, using ebooks and Finding Journal Articles. <b>For revalidating nurses, we have a Reflective Reading Club where you can earn 3 hours of CPD per session.</b> We also design bespoke sessions e.g. basic statistics and health literacy. You can also attend Whittington Health Library's training sessions covering critical appraisal of research papers and finding evidence using databases.</p>	<p>We produce a monthly general Current Awareness Bulletin highlighting key developments and publications in health and social care relevant for primary care. Sign up by emailing <a href="mailto:ncl.lib@nhs.net">ncl.lib@nhs.net</a></p> <p>Need something more specific? Email us and we can discuss your needs.</p>
