**"It's time to talk about bowel cancer. The bowel cancer screening kit could stop cancer before it starts."**

**Dr Shraddha,**  
Consultant  
Gastroenterologist

**Regular screening could stop cancer before it starts.**

Bowel cancer is one of the most common cancers and regular screening can help prevent it. The free NHS bowel cancer screening kit is available to everyone in London aged 56-74. The kits are for people with no symptoms and most get the all clear.

To learn more, visit [healthy london.org/BCS](http://healthy london.org/BCS)

**Help us help you**

1 in 17 men and 1 in 20 women will be diagnosed with bowel cancer during their lifetime.

In the UK, every 30 minutes, someone dies from bowel cancer.

Camden BCS Screening uptake is at 51.8% below the National target of 60%.

Find out more about the bowel cancer screening programme and tips and tools to help support practices encourage better uptake with their patients.

Bring your questions along.

The session will also be recorded and available for sharing afterwards.
