For Healthcare Professionals working in General Practice in the Midlands

This informative session will provide a practical update on the assessment, diagnosis and management of paediatric allergy in primary care. Delivered by Professor Nick Makwana, Consultant Paediatrician (Paediatric Allergy), the webinar will explore current best practice, diagnostic approaches, and evolving management strategies for common allergic conditions seen in children.

The session will include interactive case discussions to support learning through real-world examples, helping clinicians feel more confident in recognising allergy presentations, initiating appropriate management, and understanding when onward referral may be required.

You will receive a certificate of attendance with 1 hour of educational content towards your Continued Professional Development upon completion of this training.

Professor Nick Makwana MD
