Cancer screening resource directory

- As part of the reasonable adjustments identified via the workshops to support people experiencing homelessness participate in cancer screening, access to resources was identified.
- The aim is to aid key workers and staff in frequent contact with people experiencing homelessness with access to key resources and information to encourage cancer screening participation, however this platform is accessible to all colleagues across London to facilitate conversations with their patients and service-users.
- This platform is for health and social care professionals and contains guidance for professionals and quick access to patient resources to share widely or to download and print.

The cancer screening resource directory was developed in partnership with NHSE (London Region) Cancer Screening Commissioning Team and Transforming Cancer Services Team for London (TCST).
